## Experience

**CodingExpo Technology Pvt. Ltd.**

**Jan 2023 – Present**

*Frontend Developer (React)*

*Noida, Uttar Pradesh*

- Developed user interface components using React.js concepts and workflows such as Redux, Flux, and Context API.
- Assisted in designing and implementing user interfaces using HTML, CSS, and JavaScript frameworks like React JS to ensure a smooth and responsive user experience.
- Participated in code reviews, debugging, and testing processes to identify and resolve issues, ensuring the quality of the codebase.

**Competent Groove Pvt. Ltd.**

**Aug 2022 – Dec 2022**

*MEAN Stack Developer*

*Mohali, Punjab*

- Successfully integrated 3 third-party APIs, enhancing application functionality and user experience .
- I've also worked with HTML, CSS, JavaScript, Angularjs, Nodejs, and MySQL.
- Stayed updated with the latest trends and best practices in MEAN development to continuously improve skills and techniques.

## Projects

**Amazon Store** | *Javascript , ReactJS*

**November 2022**

- Technology Used: HTML, CSS, JavaScript, ReactJS
- Objective: Create a functional Amazon-like shopping website
- State Management: Utilize React's state to handle cart updates and other dynamic data.
- Applied responsive design principles to create an adaptive and mobile-friendly interface, optimizing accessibility for users on different devices

**FligtWay** | *ReactJs, JavaScript,NodeJs,ExpressJs MySQL*

**Jan 2024**

- Developed a comprehensive ticket booking system named "Flightway" using the MERN stack, allowing users to seamlessly search, book, and manage tickets for various transportation modes
- Implemented user authentication and authorization features to ensure secure access, enabling users to create accounts, log in securely, and manage their booking history
- Integrated real-time data updates for ticket availability and pricing, enhancing user experience by providing accurate and up-to-date information.
- Designed an intuitive and responsive user interface with a focus on accessibility, enabling users to effortlessly navigate the platform and make bookings on various devices.

**MyDR24** | *ReactJs, JavaScript,NodeJs,ExpressJs and MongoDB*

**March 2023**

- Designing Development of this Website using HTML CSS JavaScript ReactJs,NodeJs MongoDB .
- There are many features Medical equipment, doctor details, and Labs sections.
- This is fully Responsive Doctor's website where patients can see different sections and patients can connect to doctor.

**Ecommerce Website** | *ReactJs, JavaScript,NodeJs,ExpressJs and MongoDB*

**Dec 2023**

- Developed a watch collection website using MERN stack for seamless integration and robust functionality
- Implemented user authentication and authorization features to ensure secure access, enabling users to create accounts, log in securely, and manage their booking history
- Ensured optimal user experience across various devices through responsive design principles
- implemented secure payment processing for a trustworthy and safe shopping experience.
